Master bands and ranges

This table is intended to be in a format useful for electronic prescribing systems.

Use To (A) if your system will round **up** for doses on the step between two bands.

Use To (B) if your system will round **down** for doses on the step between two bands.

Upper and lower limits of the dose banding table do not imply absolute maximum or minimum doses, or endorse dose capping. Refer to product data sheet for information regarding dose limits and particulars for preparation.

Each teclistamab table, 10mg/mL and 90mg/mL, should be implemented separately according to their dosing schedule: either step-up dose or maintenance dose.

This table must be used for maintenance dose (1.5mg/kg).
