Annex A Section 2: Acute, Mental Health, IAPT and Community Providers	17

Background

The Health and Social Care Act 2012 (the Act) gives [NHS England](#) statutory powers, under section 259(1)(a), to require data from health or social care bodies, or organisations that provide publicly funded health or adult social care in England, where it has been directed to establish an information system by the Secretary of State for Health and Social Care.

The data, as specified by NHS England in this published Data Provision Notice, is required to support a direction from the Secretary of State for Health and Social Care to NHS England. Therefore, organisations that are in scope of the notice are legally required, under section 259(5) of the Act, to provide the data in the form and manner specified below.

Purpose

The Costing Transformation Programme (CTP) was set up to implement PLICS across acute, mental health, ambulance and community providers.

Patient Level Information and Costing data is used to standardise the method of reporting cost information. All designated providers of acute, ambulance, mental health and talking therapies (previously known as Improving Access to Psychological Therapies (IAPT) and will continue to be referred to as IAPT throughout in line with the extract specification) and community activity are required to submit patient level costing data in accordance with Annex A, Section 1 and Section 3 of this document in Summer 2025 and on an annual basis thereafter.

PLICS data enables NHS England to perform its pricing and licensing functions under the Health and Social Care Act 2012 (**the 2012 act**) more effectively. The data is used to:

- Analytics:
 - develop analytical tools, metrics and reports to help providers improve their data quality, identify operational and clinical efficiencies, and review and challenge their patient-level cost data at provider, population, system and national level
 - supporting efficiency and quality of care improvement programmes and other operational productivity dashboards such as the Model Hospital, Model Mental Health, Model Community and Model Ambulance
 - produce and distribute patient-level data in our tools for use by NHS providers, e.g. national PLICS portal and PLICS data quality tool
 - support efficiency and quality of care improvement programmes, e.g. Getting It Right First Time (GIRFT), and operational productivity in NHS providers
 - support additional functionality in new releases of our range of tools, e.g. the PLICS portal
- Investment, pricing and pathway design
 - inform the existing payment models including the NHS payment scheme
 - inform and model new methods of pricing NHS services
 - inform new approaches and other changes to currency design
 - review investment decisions, e.g. for technology and staffing
- Effectiveness, efficiency, and quality
 - implement integrated care systems and organisations
 - support efficiency and quality of care improvement programmes

- inform the relationship between provider and patient characteristics and cost
 - inform the relationship between provider characteristics, patient characteristics and cost
 - understand the cost of patient care during and post the COVID-19 pandemic
- Improving costing
 - inform future cost collection design
- informing costing standards development
 - develop to the PLICS collection, including the impact assessment on mandating the submission of PLICS

Benefits

Understanding how providers spend money is essential in tackling short-term deficits; supporting the development of new models of care and reducing the variation in resource utilisation.

The level of data collected in legacy aggregate collections were not granular enough to easily identify potential efficiency gains. Such data is limited in its ability to reflect the complexity of patient care and identify cost variation between individual patients. By implementing PLICS, a standardised method of reporting cost information at patient level, this can be rectified. This will be produced by patient-level information and costing systems (PLICS).

NHS England's Costing Transformation Programme (CTP) was established to implement PLICS across Acute, Mental Health, Ambulance and Community providers. The programme entails:

- introducing and implementing new standards for patient level costing
- developing and implementing one single national cost collection to replace current multiple collections
- establishing the minimum required standards for costing software and promoting its adoption; and
- driving and encouraging sector support to adopt Patient Level Costing methodology and technology.

This collection is being undertaken as part of that Programme and comprises data from providers of Acute, Mental Health, IAPT and Community services as per Annex A Section 2 of the Requirements Specification for Patient Level Information and Costing Systems (PLICS) Mandatory Collections continued implementation and associated published Mandatory Request.

These documents are published on the NHS Digital website: <https://digital.nhs.uk/about-nhs-digital/corporate-information-and-documents/directions-and-data-provision-notices/mandatory-requests-from-nhs-improvement/patient-level-information-and-costing-systems-plics-mandatory-collections-continued-implementation-mandatory-request-information-system>

Additional benefits include that PLICS data may be released when appropriate to do so under Data Sharing Agreements by NHS England to organisations, including universities, where it can be used for research to better inform delivery of effective and efficient healthcare services in the future.

Legal basis for collection, analysis, publication and dissemination

As of 1 July 2022, Monitor (NHS Improvement) was abolished and all mandatory requests to NHS Digital from Monitor were to be treated as a direction from NHS England to NHS Digital under section 254 Health and Social Care Act 2012 (the 2012 Act). On 1 February 2023, NHS Digital was merged into NHS England. The statutory functions of NHS Digital transferred to NHS England under the Health and Social Care Information Centre (Transfer of Functions, Abolition and Transitional Provisions) Regulations 2023 (Transfer Regulations). Under these Transfer Regulations, all directions from either the Secretary of State for Health and Social Care or NHS England to NHS Digital are now treated as directions from the Secretary of State for Health and Social Care to NHS England.

Therefore, the acceptance of the direction (formerly a mandatory request) is the legal basis to perform the PLICS collection.

Collection and analysis

NHS England is directed, under section 254 of the Health and Social Care Act 2012 (previously a mandatory request Health and Social Care Act 2012); to establish and operate a system for the collection and analysis of the information specified for this service. A copy of the mandatory request (now Direction) and accompanying requirements specification, which sets out the legal basis under which this request was made, is published on the NHS England website: <https://digital.nhs.uk/about-nhs-digital/corporate-information-and-documents/directions-and-data-provision-notices/mandatory-requests-from-nhs-improvement/patient-level-information-and-costing-systems-plics-mandatory-collections-continued-implementation-mandatory-request-information-system>

This information is required by NHS England under section 259(1)(a) of the Health and Social Care Act 2012.

In line with section 259(5) of the Act, all organisations in scope, in England, must comply with the requirement and provide information to NHS England in the form, manner and period specified in this Data Provision Notice.

This Notice is issued in accordance with the procedure published as part of an NHS England duty under section 259(8).

Publication

In accordance with section 260(1) of the 2012 Act, NHS England has a legal duty to publish all information it collects by complying with a request unless it falls within section 260(2) of the 2012 Act.

It is intended that the information from the data collected will be made widely available through publication to commissioners, providers, clinicians, service users and the public (to inform choice). In addition, NHS England may also be required to undertake ad-hoc analyses utilising the data, to answer ad-hoc analytical requests, such as parliamentary questions.

Dissemination

Regular Dissemination/Sharing

It is also intended that information from the data collected will be made available through the provision of data extracts (including linked data) to other organisations, subject to relevant information governance approvals please see DARS section below.

Data Access Request Service (DARS)

NHS England disseminates data via the Data Access Request Service (DARS) This process verifies that there is an appropriate legal basis for an applicant to access the requested data and that appropriate safeguards are in place to ensure that the applicant will store and handle data safely and securely.

Requests for data from external bodies for analysis and/or publication purposes will be subject to the controls and approvals in place within NHS England's [Data Access Environment](#) and [Data Access Request Service](#)

Under section 261 of the Act, NHS England may disseminate the information it obtains by complying with the section 255 mandatory request to an organisation that has a legal basis for receiving the information. Dissemination of data by NHS England is managed by the Data Access Request Service (DARS)

Persons consulted

Upon receipt of a request to establish a system to collect Patient Level Information and Costing Systems (PLICS) Integrated, NHS England has, as required under section 258 of the Health and Social Care Act 2012, consulted with the following persons:

- NHS England
- Providers of Acute, Mental Health, IAPT and Community services in accordance with Annex A, Section 2, of this document.
- Representatives of other stakeholders including Arm's Length Bodies (ALBs).

There were minimal changes made to the collection in 2025, they were either necessary due to changes to underlying mandated activity datasets which needed to be reflected in PLICS or because of existing data items no longer being appropriate.

The Data Alliance Partnership Board (DAPB) has been established as part of a system-wide information and technology governance model. The DAPB acts with delegated authority from the Secretary of State as the main governance route through which all data collections and standards requirements are agreed, and priorities assigned.

DAPB also noted that the changes are not as significant this year as they have been in previous years, and so the level of consultation is reflected in that and is deemed appropriate.

Scope of the collection

Under section 259(1)(a) of the Health and Social Care Act 2012, this Notice is served in accordance with the procedure published as part of the NHS England duty under section 259(8) on the following persons:

- All trusts identified in Annex A Section 2 of the published Requirements Specification for Patient Level Information and Costing Systems (PLICS) Mandatory Collections

continued implementation and associated Mandatory Request. These documents are published on the NHS Digital website: <https://digital.nhs.uk/about-nhs-digital/corporate-information-and-documents/directions-and-data-provision-notices/mandatory-requests-from-nhs-improvement/patient-level-information-and-costing-systems-plics-mandatory-collections-continued-implementation-mandatory-request-information-system>

The organisation specified in the above Scope are requested to comply with the Form, Manner and Period requirements below.

Further information on this PLICS collection is contained within the Approved Costing Guidance 2024 published by NHS England. [NHS England » Approved costing guidance](#)

Form of the collection

The data to be collected can be found in Annex A Section 1 of the published Requirements Specification for Patient Level Information and Costing Systems (PLICS) Mandatory Collections continued implementation and associated Mandatory Request.

The Integrated Extract Specification for collection is available on the NHS England website: [NHS England » Integrated extract specification 2025](#)

Submissions into NHS England are preferred in XML but .csv format is also acceptable.

The format and structure of the XML files are detailed in the Integrated Schema which is published on the NHS England website, [NHS England » Integrated schema 2025](#)

Manner of the collection

Providers submitting data will transfer it using the NHS England [Secure Electronic File Transfer \(SEFT\)](#) platform.

This service is currently used to submit a range of information. The platform is a web-based solution that does not require the installation of any software, apart from the use of a compatible web browser.

The collection will also be supported by a range of technical and business controls, including validation of data submitted against the XML Schema and notification of any Data Quality Warnings.

Period of the collection

The data will be collected annually. The submission window for 24/25 will run from 9 June to 1 August 2025.

This is a single annual collection exercise from each trust at Annex A Section 2 of the [Requirements Specification for Patient Level Information and Costing Systems \(PLICS\) Mandatory Collections continued implementation](#).

Data quality

Data quality will be supported by a range of technical and business controls at NHS England, including validation of data submitted against the XML Schema.

The Approved Costing Guidance 2025 published on the NHS England website: [NHS England » Approved costing guidance](#), contains further guidance for Trusts prior to and during data submission.

Sensitive and legally restricted data – guidance for the collection

Trusts must not submit data at a **patient level** PLICS for patients receiving services or treatments where there is sensitive/legally restricted data.

The list of excluded data covers the below treatment and diagnosis categories:

- HIV and AIDS
- sexually transmitted disease
- gender re-assignment
- reproductive medicine

The below table identifies the Healthcare Resource Groups (HRGs) which are **excluded at patient level**:

HRG-level exclusions

HRG	HRG description
MC07Z	Intrauterine insemination with superovulation
MC08Z	Intrauterine insemination with superovulation, with donor
MC09Z	Intrauterine insemination without superovulation
MC10Z	Intrauterine insemination without superovulation, with donor
MC11Z	Implantation of embryo
MC12Z	Oocyte recovery
MC13Z	Donor oocyte recovery
MC14Z	Oocyte recovery with intracytoplasmic sperm injection
MC15Z	Oocyte recovery with pre-implantation genetic diagnosis
MC20Z	Surgical extraction of sperm
MC21Z	Collection of sperm
WJ10A	HIV disease with multiple interventions

HRG	HRG description
WJ10B	HIV disease with single intervention, with CC score 5+
WJ10C	HIV disease with single intervention, with CC score 0–4
WJ10D	HIV disease without interventions, with CC score 5+
WJ10E	HIV disease without interventions, with CC score 2–4
WJ10F	HIV disease without Interventions, with CC score 0–1
WJ04Z	Genito-urinary medicine (GUM) infections
XD38Z	Antiretroviral Drugs, Band 1

NHS England will reject any submitted PLICS file if it contains one or more of the excluded HRGs above at **patient level**, as part of the file validation process.

You should filter out data to the most granular level (OPCS/ICD10 code) to ensure you capture all attendances and episodes that are excluded from the PLICS collection.

The below tables identify Procedure and Diagnosis level exclusions.

Procedure-level exclusions

OPCS code	Description
N341	Fertility investigation of male NEC
N342	Collection of sperm NEC
N343	Male colposcopy
N344	Microsurgical epididymal sperm aspiration
N345	Percutaneous epididymal sperm aspiration
N346	Testicular sperm extraction
Q131	Transfer of embryo to uterus NEC
Q132	Intracervical artificial insemination
Q133	Intrauterine artificial insemination
Q134	Intrauterine insemination with superovulation using partner sperm
Q135	Intrauterine insemination with superovulation using donor sperm
Q136	Intrauterine insemination without superovulation using partner sperm
Q137	Intrauterine insemination without superovulation using donor sperm

Q138	Other specified introduction of gametes into uterine cavity
Q139	Unspecified introduction of gametes into uterine cavity
Q211	Transmyometrial transfer of embryo to uterus
Q218	Other specified other introduction of gametes into uterine cavity
Q219	Unspecified other introduction of gametes into uterine cavity
Q382	Endoscopic injection into fallopian tube
Q383	Endoscopic intrafallopian transfer of gametes
Q481	Endoscopic transurethral ultrasound directed oocyte recovery
Q482	Endoscopic trans vesical oocyte recovery
Q483	Laparoscopic oocyte recovery
Q484	Transvaginal oocyte recovery
Q488	Other specified oocyte recovery
Q489	Unspecified oocyte recovery
Q561	Fertility investigation of female NEC
Q562	Fertiloscopy
U321	Human immunodeficiency virus blood test
X866	Antiretroviral drugs Band 1
X151	Combined operations for transformation from male to female
X152	Combined operations for transformation from female to male
X154	Construction of scrotum
X158	Other specified operations for sexual transformation
X159	Unspecified operations for sexual transformation
Y961	In vitro fertilisation with donor sperm
Y962	In vitro fertilisation with donor eggs
Y963	In vitro fertilisation with intracytoplasmic sperm injection
Y964	In vitro fertilisation with intracytoplasmic sperm injection and donor egg
Y965	In vitro fertilisation with pre-implantation for genetic diagnosis
Y966	In vitro fertilisation with surrogacy
Y968	Other specified in vitro fertilisation

Y969	Unspecified in vitro fertilisation
------	------------------------------------

Diagnosis-level exclusions

ICD10 code	Description
A500	Early congenital syphilis, symptomatic
A501	Early congenital syphilis, latent
A502	Early congenital syphilis, unspecified
A503	Late congenital syphilitic oculopathy
A504	Late congenital neurosyphilis [juvenile neurosyphilis]
A505	Other late congenital syphilis, symptomatic
A506	Late congenital syphilis, latent
A507	Late congenital syphilis, unspecified
A509	Congenital syphilis, unspecified
A510	Primary genital syphilis
A511	Primary anal syphilis
A512	Primary syphilis of other sites
A513	Secondary syphilis of skin and mucous membranes
A514	Other secondary syphilis
A515	Early syphilis, latent
A519	Early syphilis, unspecified
A520	Cardiovascular syphilis
A521	Symptomatic neurosyphilis
A522	Asymptomatic neurosyphilis
A523	Neurosyphilis, unspecified
A527	Other symptomatic late syphilis
A528	Late syphilis, latent
A529	Late syphilis, unspecified
A530	Latent syphilis, unspecified as early or late
A539	Syphilis, unspecified

ICD10 code	Description
A540	Gonococcal infection of lower genitourinary tract without periurethral or accessory gland abscess
A541	Gonococcal infection of lower genitourinary tract with periurethral and accessory gland abscess
A542	Gonococcal pelviperitonitis and other gonococcal genitourinary infections
A543	Gonococcal infection of eye
A544	Gonococcal infection of musculoskeletal system
A545	Gonococcal pharyngitis
A546	Gonococcal infection of anus and rectum
A548	Other gonococcal infections
A549	Gonococcal infection, unspecified
A55X	Chlamydial lymphogranuloma (venereum)
A560	Chlamydial infection of lower genitourinary tract
A561	Chlamydial infection of pelviperitoneum and other genitourinary organs
A562	Chlamydial infection of genitourinary tract, unspecified
A563	Chlamydial infection of anus and rectum
A564	Chlamydial infection of pharynx
A568	Sexually transmitted chlamydial infection of other sites
A57X	Chancroid
A58X	Granuloma inguinale
A590	Urogenital trichomoniasis
A600	Herpes viral infection of genitalia and urogenital tract
A601	Herpes viral infection of perianal skin and rectum
A609	Anogenital herpes viral infection, unspecified
A630	Anogenital (venereal) warts
A638	Other specified predominantly sexually transmitted diseases
A64X	Unspecified sexually transmitted disease
A65X	Non-venereal syphilis
A740	Chlamydial conjunctivitis

ICD10 code	Description
A749	Chlamydial infection, unspecified
B171	Acute hepatitis C
B200	HIV disease resulting in mycobacterial infection
B201	HIV disease resulting in other bacterial infections
B202	HIV disease resulting in cytomegaloviral disease
B203	HIV disease resulting in other viral infections
B204	HIV disease resulting in candidiasis
B205	HIV disease resulting in other mycoses
B206	HIV disease resulting in <i>Pneumocystis jirovecii</i> pneumonia
B207	HIV disease resulting in multiple infections
B208	HIV disease resulting in other infectious and parasitic diseases
B209	HIV disease resulting in unspecified infectious or parasitic disease
B210	HIV disease resulting in Kaposi sarcoma
B211	HIV disease resulting in Burkitt lymphoma
B212	HIV disease resulting in other types of non-Hodgkin lymphoma
B213	HIV disease resulting in other malignant neoplasms of lymphoid, haematopoietic and related tissue
B217	HIV disease resulting in multiple malignant neoplasms
B218	HIV disease resulting in other malignant neoplasms
B219	HIV disease resulting in unspecified malignant neoplasm
B220	HIV disease resulting in encephalopathy
B221	HIV disease resulting in lymphoid interstitial pneumonitis
B222	HIV disease resulting in wasting syndrome
B227	HIV disease resulting in multiple diseases classified elsewhere
B230	Acute HIV infection syndrome
B231	HIV disease resulting in (persistent) generalised lymphadenopathy
B232	HIV disease resulting in haematological and immunological abnormalities, not elsewhere classified
B238	HIV disease resulting in other specified conditions

ICD10 code	Description
B24X	Unspecified human immunodeficiency virus (HIV) disease
F640	Transsexualism
F641	Dual-role transvestism
F642	Gender identity disorder of childhood
F648	Other gender identity disorders
F649	Gender identity disorder, unspecified
F651	Fetishistic transvestism
F656	Multiple disorders of sexual preference
F660	Sexual maturation disorder
F661	Egodystonic sexual orientation
F662	Sexual relationship disorder
F668	Other psychosexual development disorders
F669	Psychosexual development disorder, unspecified
N46X	Male infertility
N970	Female infertility associated with anovulation
N971	Female infertility of tubal origin
N972	Female infertility of uterine origin
N973	Female infertility of cervical origin
N974	Female infertility associated with male factors
N978	Female infertility of other origin
N979	Female infertility, unspecified
N980	Infection associated with artificial insemination
O981	Syphilis complicating pregnancy, childbirth and the puerperium
O982	Gonorrhoea complicating pregnancy, childbirth and the puerperium
O983	Other infections with a predominantly sexual mode of transmission complicating pregnancy, childbirth and the puerperium
O987	Human immunodeficiency virus (HIV) disease complicating pregnancy, childbirth and the puerperium
R75X	Laboratory evidence of human immunodeficiency virus (HIV)

ICD10 code	Description
R762	False-positive serological test for syphilis
Z113	Special screening examination for infections with a predominantly sexual mode of transmission
Z114	Special screening examination for human immunodeficiency virus (HIV)
Z202	Contact with and exposure to infections with a predominantly sexual mode of transmission
Z206	Contact with and exposure to human immunodeficiency virus (HIV)
Z21X	Asymptomatic human immunodeficiency virus (HIV) infection status
Z224	Carrier of infections with a predominantly sexual mode of transmission
Z310	Tuboplasty or vasoplasty after previous sterilization
Z311	Artificial insemination
Z312	In vitro fertilization
Z313	Other assisted fertilization methods
Z314	Procreative investigation and testing
Z315	Genetic counselling
Z316	General counselling and advice on procreation
Z318	Other procreative management
Z319	Procreative management, unspecified
Z350	Supervision of pregnancy with history of infertility
Z717	Human immunodeficiency virus (HIV) counselling
Z830	Family history of human immunodeficiency virus (HIV) disease

Drugs and Blood Products

For Drug Codes submitted as part of the Supplementary Information (SI) feed type, the only Drug Codes accepted are those detailed in the Integrated Extract Specification “Ref Data – Currency Codes” worksheet, where Currency Scheme in Use = 01.

NHS England will reject any submitted PLICS file if it contains one or more Drug Codes not included in the above worksheet as detailed.

Aggregated Feed type

Trusts will submit some data in PLICS at **aggregate level only** for services or treatments where there is sensitive/legally restricted data.

Data submitted within the non-patient level Aggregated (AGG) feed type will not include any patient identifiable data items.

The below table identifies the Healthcare Resource Groups (HRGs) which have previously been excluded from PLICS but are now included at an aggregated level:

HRG-level included at aggregate level

HRG	HRG description
MC07Z	Intrauterine insemination with superovulation
MC08Z	Intrauterine insemination with superovulation, with donor
MC09Z	Intrauterine insemination without superovulation
MC10Z	Intrauterine insemination without superovulation, with donor
MC11Z	Implantation of embryo
MC12Z	Oocyte recovery
MC13Z	Donor oocyte recovery
MC14Z	Oocyte recovery with intracytoplasmic sperm injection
MC15Z	Oocyte recovery with pre-implantation genetic diagnosis
MC20Z	Surgical extraction of sperm
MC21Z	Collection of sperm
WJ10A	HIV disease with multiple interventions
WJ10B	HIV disease with single intervention, with CC score 5+
WJ10C	HIV disease with single intervention, with CC score 0–4
WJ10D	HIV disease without interventions, with CC score 5+
WJ10E	HIV disease without interventions, with CC score 2–4
WJ10F	HIV disease without Interventions, with CC score 0–1
WJ04Z	Genito-urinary medicine (GUM) infections
XD38Z	Antiretroviral Drugs, Band 1

Burden of the collection

Steps taken by NHS England to minimise the burden of collection

NHS England has a statutory duty under section 253(2) of the Act to seek to minimise the burden it imposes on others. In seeking to meet these obligations in relation to this collection, NHS England has:

- sought to minimise the burden on general practices by using existing data already submitted to NHS England via activity datasets, rather than requesting information in another format which may be more burdensome to process.

In addition, in support of its obligation under 265(3) of the Act, NHS England has an assessment process to validate and challenge the level of burden incurred through introducing new information standards, collections and extractions.

This process is carried out by the Data Standards Assurance Service (DSAS) which assures burden assessment evidence as part of the overarching Data Alliance Partnership Board (DAPB) approval process. The DAPB, acting under authority of the Secretary of State, oversees the assurance, approval and publication of information standards and data collections for the health and social care system in England.

Assessed costs

The associated burden of the data collection is:

Burden on providers	£12.2m	The total estimated additional cost for data providers of setting up for the collection, processing and submitting this annual return to NHS England
Total burden	£ 12.2m	No other costs have been identified for this data collection, so the total stands at £12.2 m across all data providers.

Collection of Providers in 2025 – Mergers and Acquisitions

Royal Free London NHS Foundation Trust (RAL) merged with North Middlesex University Hospital NHS Trust (RAP) on 01 January 2025 – they will submit 2 sets of files for the trusts in 2025 as appropriate systems are not yet in place to submit a joint set of files.

Camden and Islington NHS Foundation Trust (Formerly TAF, now G6V2S) merged with Barnet, Enfield and Haringey NHS trust (RRP) on October 2024. They will submit 2 sets of files for the trusts in 2025 as appropriate systems are not yet in place to submit a joint set of files.

Southern Health (RW1) acquired services from Sussex Partnership (RX2), Isle of Wight (R1F) and Solent (R1C) and on obtaining these services a new trust has been formed named Hampshire and Isle of Wight Healthcare NHS Foundation Trust. This new trust is legally operational from 1 July 2024. A 3 month submission will be submitted from Solent (R1C) for the months 1 April 24 to 30 June 24. A 12 month submission will be completed by the new merged trust.

Kingston Hospital NHS Foundation Trust (RAX) merged with Hounslow and Richmond Community Healthcare NHS Trust (RY9) on 1 November 2024 to continue as a combined entity (RAX). They will submit 2 sets of files for the trusts in 2025 as appropriate systems are not yet in place to submit a joint set of files.
